INDEX.....	385
------------	-----

EXPLANATORY NOTES

In all the tables of imports and exports in this report the quantities and values are based upon the declarations of importers (import entries) and of exporters (export entries), as subsequently checked by Customs officials.

Weight, where shown, is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs tariff.

The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.

Imports: Valuation.—"Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.

The value of imported merchandise under the main provisions of the law is the fair market value or the price thereof when sold for home consumption in the principal markets of the country whence and at the time when the same was exported directly to Canada, also not less than the price to jobbers or wholesalers generally nor less than the actual cost of production of goods at time of shipment plus a reasonable advance for selling cost and profit. The values shown are in Canadian dollars converted from the currency of the country of exports where required at exchange ratios as prescribed for Customs purposes by existing authorities.

Canadian Exports: Valuation.—"Canadian Produce" exported includes Canadian products or manufactures, also exports of commodities of foreign origin which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The value of exports of Canadian merchandise is the actual cost or the value at the time of exportation at the points in Canada whence originally shipped.

Foreign Exports: Valuation.—"Foreign Produce" exported consists of foreign merchandise which had been imported (entered for home consumption).

The value of such commodities is the actual cost of such goods.

Countries to Which Trade is Credited.—Imports are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, save in the course of transshipment or transfer from one conveyance to another.

The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.

Exports are credited to the country of final destination, *i.e.*, the country to which they are consigned, whether that country possesses a seaboard or not. The country of final destination is the country to which goods exported from Canada are intended to pass, without interruption of transit, save in the course of transshipment or transfer from one means of conveyance to another.

Ports.—The Table of the Trade of Canada, by Ports and Provinces, shows that merchandise was imported or exported at these ports; but this does not imply that goods imported at any port were for home consumption there or even in the province in which the port is situated, neither does it imply that goods exported at any port originated there or even in the province in which the port is situated.

The initials "N.O.P." mean "not otherwise provided for".

Electrical Energy.—The values of electrical energy imported and exported are included in the totals of trade as from April 1, 1928.

NOTES EXPLICATIVES

Toutes les indications de volume et de valeur que l'on trouvera dans cet ouvrage sont basées sur les déclarations des importateurs et des exportateurs (documents d'importation et d'exportation) subséquemment vérifiés par les fonctionnaires des douanes.

Partout où il est question de poids, il s'agit du poids net des marchandises, c'est-à-dire que le poids des emballages, récipients, etc., n'y est pas compris, sauf certaines exceptions énumérées au tarif des douanes.

L'expression «ton.» signifie 2,000 livres et «qtx» (ou quintal) 100 livres avoir-du-poids. Lorsque l'on se sert d'autres unités, il convient d'adopter le standard impérial de poids et mesures.

Importations: Evaluation.—«Importations» signifie «importations entrées pour la consommation». «Entrées pour la consommation» n'implique pas que ces marchandises sont nécessairement consommées au Canada, mais qu'elles ont été livrées à l'importateur qui a payé les droits sur telle partie imposable de ces marchandises.

Dans l'esprit de la loi, la valeur des marchandises importées et le prix auquel elles sont vendues pour la consommation domestique sur les principaux marchés du pays de provenance à l'époque à laquelle ces marchandises sont exportées directement au Canada, et elle ne doit pas être inférieure au prix généralement payé par les marchands de gros, ou inférieure au coût réel de production plus une marge raisonnable pour prix de vente et profits à l'époque de l'expédition. Les valeurs paraissant dans des tableaux sont en dollars canadiens, les devises des pays exportateurs étant converties en devise canadienne aux taux du change prescrits par les autorités compétentes pour fins de douane.

Exportations: Evaluation.—L'expression «produits canadiens» couvre non seulement les produits du sol ou des manufactures du Canada mais aussi les produits d'origine étrangère qui ont été modifiés dans leur forme ou augmentés de valeur par l'industrie canadienne, comme le sucre raffiné au Canada après y avoir été importé brut, la farine extraite de blé importé et les articles construits ou fabriqués avec des matériaux importés.

La valeur des produits canadiens exportés est leur valeur actuelle aux ports du Canada d'où ils sont expédiés, au moment de leur exportation.

Réexportations: Evaluation.—Les «produits étrangers» exportés englobent toutes les marchandises réexportées par le Canada, après avoir été importées (entrées pour la consommation).

La valeur de ces produits étrangers est le coût effectif de ces marchandises.

Pays auxquels le commerce est attribué.—Les importations sont attribuées aux pays d'où elles ont été consignées au Canada. Les pays de consignment sont les pays d'où viennent les marchandises, sans autre interruption de transit que les transbordements inévitables.

Les pays d'où les marchandises sont consignées ne sont pas nécessairement les pays d'origine, car les marchandises produites dans un certain pays peuvent avoir été achetées par une firme d'un autre pays, d'où elles peuvent être expédiées au Canada après une période plus ou moins longue. Dans ce cas, l'attribution de ces marchandises est faite au second pays, considéré comme pays de consignment. Il en sera ainsi, par exemple, du thé récolté en Orient mais acheté sur le marché de Londres, Angleterre; les statistiques canadiennes considèrent telles importations comme venant du Royaume-Uni.

Les exportations sont attribuées au pays de l'ultime destination, c'est-à-dire le pays où elles sont consignées, même si ce pays ne possède pas de port de mer. Le pays d'ultime destination est le pays que les marchandises exportées du Canada doivent finalement atteindre sans interruption de transit autre que les transbordements inévitables.

Ports.—Le tableau du commerce du Canada, par ports et provinces, montre les marchandises importées ou exportées par ces ports, mais il n'en faut pas conclure que les marchandises importées par un port quelconque sont pour la consommation de la province où est situé le port, ou que les marchandises exportées sont produites par la province où est situé le port de sortie.

Les initiales «n.a.é.» signifient «non autrement énuméré».

Energie électrique.—La valeur de l'énergie électrique importée et exportée est comprise dans les totaux du rapport du Commerce du 1 avril 1928.

ERRATUM

Page 161—

Imports of Tomatoes for May, 1932, from Jamaica, reading "1,336,836 pounds, value \$68,059; and from Mexico, 5,614,099 pounds, value \$284,632," should read "4,592 pounds, value \$97; and 6,946,343 pounds, value \$503,621", respectively; while the imports for the three months ended June, 1932, from Jamaica, reading "1,339,156 pounds, value \$68,156; and from Mexico, 11,487,952 pounds, value \$594,724", should read "6,912 pounds, value \$194; and 12,820,196 pounds, value \$662,686", respectively.
